

IO3 –Make Your Way Roadmap and Guide for Mentoring Talent! Check it out!

This result intends to provide guidance on the future application of the developed materials (IO2) in practice, by VET providers and as one of the key „stones" of the LABs (current and future).

Part of the output is a comprehensive Guide for mentors/trainers/facilitators on pro-entrepreneurial mentoring (mentoring talent). The Guide is mainly targeted at VET teachers, trainers, and LABs' staff/facilitators, but there is also an intention to prepare VET learners to act as tutors for potential/younger VET learners (peer activities). In this scenario, this Guide will help those "young mentors" to carry out peer activities with their younger colleagues (such sharing approach is very present in the LAB environment).
